

SonicWebTech Work Description for Quick Needs Assessment

This work description from SonicSpider LLC's SonicWebTech Program is bound by the *Terms of Service Agreement* as posted on SonicSpider's web site (<http://www.esonicspider.com>) and the "*General Terms of Service*" published with this description and may be modified without notice.

Standard hourly rate is \$125.00 per hour

Service Work Description:

1. Recommended submittal of written outline of needs as you understand them. Try and include some of these areas:
 1. Basic goals of project
 2. Current work or related materials
 3. Will there be user interaction
 4. Time line for project
 5. Is there a budget?
2. Thirty minute phone review of your requirements. This may include but is not limited by:
 1. Target Audience to determined presentation issues
 2. Environment (Hosting Requirements)
 3. Validation of data
 4. Technical issues and limitations
 5. Scope and future growth
 6. Database requirements

It is recommended that you prepare for the phone review by making some notes on the above issues so that all of these areas can be covered in the required time allotment.

Service Deliverables:

1. Basic Project outline on the results of your submitted notes and our phone review.
2. Possible cost areas based on this outline.

Note: The degree of detail and accuracy will be limited based on the provided information. No assumptions will be made beyond the information available.

Cost: \$99.00 pre-paid

Note: If you use our services then \$50 of your assessment fee will be applied to your project.
